Vehicle Import

The following documents are needed to Import a motor vehicle in Antigua and Barbuda:

- Import license from Ministry of Trade
- Refrigerant form from the National Ozone Office within the Ministry of Trade
- Invoice
- Bill of Lading
- Environmental Levy Form

Procedure to clear vehicle from customs

The Importer/Broker will prepare the Warrant i.e. Customs Declaration Form using the invoice and Bill of Lading.

Once the warrant has been submitted to the transit shed a valuation officer will examine the vehicle to verify the cost of vehicle, and the quantity and type of refrigerant.

When the valuation has been completed the refrigerant form will be taken by the importer/broker to the National Ozone Office for approval and documentation.

The next step is collecting the Environmental Levy form from the Environmental Protection Unit. Waiver of Environmental Levy is determined based on the age of vehicle. Waiver of Environmental Levy can be obtained from the Minister of Agriculture, and are as follows:

- Vehicles up to 1 year old a rate of \$1,000.00
- Used vehicles over 1 year old \$4,000.00

The warrants along with the supporting documents listed above can now be submitted to Customs for processing and collecting of applicable duties and taxes.

Once payment has been made, the Importer/Broker will take the warrant to be stamped by the Port Authority, which is located at Deep Water Harbour.
